INTERIM RESULTS ANNOUNCEMENT FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2025

CHARACTERISTICS OF GEM OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been positioned as a market designed to accommodate small and mid-sized companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration.

Given that the companies listed on GEM are generally small and mid-sized companies, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board of the Stock Exchange and no assurance is given that there will be a liquid market in the securities traded on GEM.

This announcement, for which the directors (the "Directors") of Gaoyu Finance Group Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief, the information contained in this announcement is accurate and complete in all material respects and not misleading or deceptive, and there are no other matters the omission of which would make any statement herein or in this announcement misleading.

The credit facility limits to margin clients are determined by the discounted market value of the collateral securities accepted by the Group. The Group maintains a list of approved stocks for margin lending at a specified loan-to-collateral ratio. A margin call may occur when the balances of the accounts receivable from margin clients exceed the permitted margin loan limit, or when the discounted market value of the collateral security is less than the balances of the accounts receivable from margin clients.

As at 30 September 2025, accounts receivable from margin clients include accounts receivable from Directors of approximately HK\$480,000 (31 March 2025: HK\$Nil).

On 26 February 2024, the Group launched a new trading system and new smartphone applications for its licensed corporation, which is a more user-friendly and informative online system for customers, with foreign stock trading capacity and lower running costs. These improvements have significantly enhanced the trading experience, offering greater efficiency and value to clients of the Group.

To elevate the Company's brand awareness and strengthen the Company's market presence, the Company is committed to engaging both current and prospective clients, thereby enhancing their understanding of the Group, as well as the diverse product and new service offerings of the Company. This strategic approach is designed to build confidence among clients, encouraging them to partner with the Company to achieve their investment goals and wealth management needs. The Company will continue to identify more VIP clients so as to broaden its VIP client base and to further boost its revenue.

Placing and Underwriting Services

The Group conducts placing and underwriting services through GSL. The Group acts as an underwriter or a sub-underwriter or a placing agent or a sub-placing agent for companies listed or to be listed on the Stock Exchange or for shareholders of companies listed on the Stock Exchange for their fund raising exercises such as IPOs, rights issue, open offer or placing of new or existing shares or bonds.

Placing and underwriting fee and commission income is principally affected by the number of engagements participated by the Group, the size of engagements and the commission rates. During the Reporting Period, the Group did not undertake any placing and underwriting engagement (Corresponding Period: 4), resulting in no related fee and commission income (Corresponding Period: approximately HK\$5,812,000).

For the Reporting Period, interest income from loan financing, margin financing and money lending services slightly decreased by approximately 38.4% from approximately HK\$1,691,000 for the Corresponding Period to approximately HK\$1,042,000. The Company will continue prudently to expand its margin book and cautiously scale up loan financing business to include mortgage loans and short-term financing business to its money lending clients with collaterals such as Hong Kong listed securities, bonds, residential properties, and other marketable securities. The Company will closely monitor the value of the collaterals and constantly update its credit control policy, particularly at this tumultuous moment, to minimize its credit exposure. The supply chain financing business operates in a similar manner to the loan financing and margin financing business. It utilises the 3C Products being pledged by 3C wholesalers as collaterals to the Group, and in return, the Group provides financing and ancillary supply chain solution services to 3C wholesalers. The Group acts as a lender for 3C wholesalers, providing upfront financing and placing orders on their behalf with 3C suppliers. This supply chain service financially facilitates 3C wholesalers in their procurement of products, and enlarges their business scale. The Group generates stable, low-risk returns through interest income from the financing it provides.

The Company will continue to solicit more 3C wholesaler customers to further boost its revenue.

At the current stage, the Group's existing 3C wholesaler customers have sold more than 2,000 different 3C products. Generally, the Group increases its 3C products range at the request of the 3C wholesaler customers. In the second stage of the Group's blueprint, depending on the needs of potential clients, the Group may explore to extend the supply chain financing business model to cover other consumable products, such as red wines and watches.

Trust Services

Regarding its provision of trust services, the Group is targeting the provision of professional trust services to its HNW clients, in order to fulfil their needs of asset protection, tax planning and wealth management. Advisory Services

The Company has been granted with approval to carry out Type 4 regulated activity (advising on securities) by the Securities and Futures Commission under the SFO during the year ended 31 March 2024. This authorization enables the Group to provide a spectrum of advisory services related to investment advice and dealing in securities. The Company has already recruited employees who have extensive experience in the securities industry and is proactively engaging in identifying and courting potential clients. Currently, the Company is in the midst of negotiations with several potential clients, discussing the scope and terms of the services it proposes to offer.
